

SCHOLARSHIP PROGRAM: ONTARIO CHAPTER, SOCIETY FOR COSMETIC CHEMISTS

The support of Cosmetic Science Education and Research are central to the goals of the Society of Cosmetic Chemists (SCC). The Ontario Chapter has developed a Scholarship Program awarded annually to Ontario University or College students. In the past, the \$1000.00 award has been presented to students from the University of Toronto and the University of Waterloo.

The program is open to undergraduate and graduate students planning to complete research related to cosmetic science. Interested students are invited to apply by submitting a brief outline of their research or work plan (2-3 paragraphs) to Dennis Zuccolin, Director of Scholarships at dzuccoli@maccosmetics.com. The scholarship applications are submitted from April to September for the following school year and are reviewed by members of the Ontario Chapter Board. Students awarded a Scholarship can also apply for additional support (up to \$1000.00) to cover research and development costs, training and conference expenses.

Successful candidates are encouraged to attend SCC Chapter meetings, volunteer at fundraising events, collaborate with members of the Society, prepare a poster, write an article for the newsletter and/or make a brief presentation on the outcome of their research.
